

## isseyIntraZip

*When inside installation is not possible.*

.....

This Issey IntraZip is a premium sunshade which is installed underneath a structure when installation on is not allowed, or not possible. Its fabric is locked in the track by a zip, which keeps the fabric sideways taut. The IntraZip blends with any architectural style thanks to its customisation options.

# isseyIntraZip

## Fabric

The IntraZip has the fabric secured in the Track Guided by a PVC inlay that is located inside the track. A series of stainless steel springs ensure perfect tension along both sides of the fabric. The screen and solid fabrics are trendsetting and available in long-lasting colours that take your breath away.

## Operation

The ability to retract the blind gives you the power to control when and how much shade is required.

- Motorised – Somfy tubular motors that can be hardwired to a switch or operated via a range of remote control.
- Automatic Sensors – For enhancement of lifestyle, choose an automatic sun & wind or rain sensor that automatically extends or extracts the systems according to the day's weather conditions

## Dimensions

Min Width 905mm		Max Width 6000mm
Min Ext. 1400mm		Max Ext. 6000mm
Max Area	WeatherMax	30m2
Max Area	Acrylic	27m2
Max Area	Soltis 86,92,96	16m2
Max Area	Soltis W96, B92	14m2

## Fasteners

Stainless steel Bolts, Nuts and Screws

## Frame Finish

A vast range of cutting edge powder coating and anodising. A range of Australian-made colours for optimum performance against our harsh climatic conditions and a perfect match with its surrounding architecture.

## Installation Methods

The IntraZip is fitted at the underside of a structure. In case of a conservatory extra space is required between the glass and sunshade for free flow and discharge of hot air. If required the IntraZip can be fitted blackout fabric, for darkness, screen fabric to keep view, or solid fabric for translucent sunprotection. Extra space is required when there's a built up of radiated heat between the glass and the sunshade, for free flow to circulate the hot air.
