Internal & Retractable Roller Blind

Windows play an important role as the eyes of every home. They also provide an opportunity for window furnishings to create an inviting ambience, to provide internal privacy and to be an outlet for a colour statement or design objective.

.....

The Issey internal roller blinds are designed to be fitted on the inside of a window, with a choice of chic stainless steel manual chain operation, or effortless motorised movement. This system can couple 2 or 3 systems together for clever convenience or intelligent cost savings.

The stunning array of fabric choices gives you the opportunity to use your design flair to create striking or classical systems. Issey's expertise lies in our ability to combine the technical aspect of the system with your personal tastes, providing you with a seamless system fitting your requirements. Issey's internal range intelligently overcomes the usual limitations of internal blinds, such as gaps or spanning large dimensions in an open or closed cassette headbox.

issey salome

Our contemporary range of internal blinds are designed to provide light, glare or privacy control to any window or glass facade. Issey can cope with large span systems and the choice of headboxes and guides. Ideal locations and uses include:

- Windows
- Doors
- Hospitals & Nursing Homes
- Commercial & Residential Buildings

Fabric

A wide choice of fabric is available to suit your unique situation.

- Fibreglass 5%/10% openness - When you have a beautiful view, selecting the screen fabric will ensure the majority of heat, glare & UV are prevented while the view is maintained.
- Blockout 100% - The Blockout fabrics have a 3-layer sandwich that is UV resistant, fire retardant, anti-static, and block 100% of the light
- Translucent Fabric - This fabric provides privacy but filters the light

Guide Options

Choices to suit your preference and window type:

- No Guides
- Powdercoated Extruded Aluminium Tracks 20 (w) x 28 (d)
- Powdercoated Extruded Blackout Aluminium Tracks 48 (w) x 28 (d)
- Stainless Steel Cables

Bottom Bar

Extruded Aluminium Slat 40 (h) x 20 (d) OR Round Tube 22mm

Operation

The ability to retract the blinds gives you the power to control when and how much shade is required:

- Motorised – Somfy tubular motors that can be hardwired to a switch or operated via remote control
- Manual Chain – Available up to 3000mm wide.
- Automatic Sensors – Fitted with light sensors or timer control, the blinds will retract or extend according to your program
- BMS – Easily integrates with Building Management Systems for convenient and versatile control

Framework

Aluminium frames

Fasteners

Stainless steel Bolts, Nuts and Screws

Frame Finish

Powdercoating (All Standard Dulux and Interpon colours)

Installation Methods

Each situation is unique and requires different methods of installation. Issey's own installers will create the most suitable method for your application.

- Recess Fit / Face Fit / Ceiling Fit - The Issiroll can be recess fitted within a window opening or face fitted to give maximum protection

Headbox Sizes & Size Limits

Optional Slimline, powdercoated headbox unobtrusively protects and prolongs the life of the system.
