External and retractable tensioned screen

Covered balconies, verandahs and pergolas can provide appealing outdoor spaces for entertainment and relaxation. But the potential of these areas are not often realised as they become unusable when combined with harsh sun and constant breezes.

.....
The Issey Vertiroll is a tensioned screen which acts as an elegant sun shade, windbreak or internal partition. Protecting these semi-open spaces, the screen shelters the area from direct heat, glare and UV rays as well as wind and rain elements. Fitted with a see-through fabric, it allows view and natural light to filter through while permitting air movement to prevent stagnant heat build up. Unobtrusively designed, the screens accommodate for any architectural style and retract into slimline headboxes.

issey vertiroll

Covered balconies, verandahs and pergolas can be transformed into usable havens by being protected from the elements. The robust system vertically protects large spans while retaining uninterrupted views and light.

- Verandahs
- Patios
- Pergolas
- Semi-Open Spaces
- Internal Retractable Partition / Divider

Fabric

A wide choice of fabric is available to suit your unique situation.

- Screen 86% / 90% / 92% / 93% - When you have a beautiful view, selecting screen fabric will ensure the majority of heat, glare & UV are prevented while the view is maintained.
- Acrylic 99.5% - A higher block-out factor may be required when maximum heat control or privacy is essential.

Guide Options

Guide choices to suit the application:

- Wire Guides - Marine grade stainless steel wires
- Tracks - Extruded aluminium 'H' tracks 30 (w) x 50 (h)
- Clip System - For manual versions only

Bottom Bar

Holds tension on the screen

- Tube - Extruded aluminium round tube 65mm with weight

Operation

The ability to retract the blinds gives you the power to control when and how much shade is required:

- Manual Crank - Removable external crank with handle attached to eye outlet
- Motorised - Somfy tubular motors that are hardwired to a switch or operated via remote control
- Automatic Sensors - For enhancement of lifestyle, choose an automatic sun & wind sensor that automatically extends or retracts the systems according to the day's conditions
- BMS - Easily integrates with Building Management Systems for convenient and versatile control

Framework

Aluminium frames
Galvanised fabric tube

Fasteners

Stainless steel Bolts, Nuts and Screws

Frame Finish

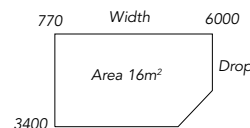

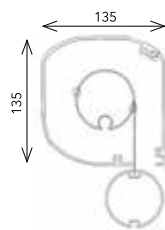

Powdercoating (All Standard Dulux and Interpon colours)
Anodising (All Standard Colours) Extrusions only

Installation Methods

Each situation is unique and requires different methods of installation. Issey's own installers will create the most suitable method for your application.

Headbox Sizes & Size Limits

Double-sided opening headbox to suit any application
